citrus
FRESH THINKING FOR SMARTER KITCHENS

We're delighted to introduce Citrus!

A fresh and easy-to-use platform that gives you more control and visibility over your child's school meals.

Citrus has been designed with both parents and pupils in mind, making mealtimes simpler, safer, and more transparent.

Through Citrus, you can:

- Pre-order your child's meals, including sides and desserts
- View detailed nutritional and ingredient information with ease
- Benefit from advanced allergen management – with alerts sent directly to the school kitchen team
- Stay informed about special menu days, new dishes, and seasonal offers

Citrus offers everything you need, in one convenient place. It's easy to use and works on phones, tables and desktops.

FRESH THINKING FOR SMARTER KITCHENS

Ordering Meals

Citrus's bright and engaging interface makes lunchtime fun and easy for your child. Parents and children can pre-order meals from home, choosing from options that include a photo of each dish to help with selection.

Dietary Information

Citrus's integrated Allergen Management System provides tailored menus for pupils with allergies or special diets, offering unmatched allergen protection in an all-in-one platform. Any dietary requirements or allergens are clearly flagged to the cook through the system, giving you peace of mind that your child's needs are carefully managed.

Payments and Parent Portal

Payments are made through the online portal using a secure card payment gateway. Funds remain in your parent account until a meal is served, and you're only charged once your child has received their meal. You'll also have access to a full history of booked meals and transactions for your records.
